PROJECT STAGE 1

What we build?

We are building a simple todo app – Daily task saving app.

Objectives

- Know how to design the user interface.
- Know about the database management.
- Familiar with database CRUD operations (Create, Read, Update, and Delete).

Extra packages using

- **google_fonts :** The google_fonts package for Flutter allows you to easily use any of the 977 fonts (and their variants) from fonts.google.com in your Flutter app.
- **Intl:** This package provides internationalization and localization facilities, including message translation, plurals and genders, date/number formatting and parsing, and bidirectional text.

Color Codes

Red = # e13535 (Floating action button background and deleted text)

Grey = # cbcbcb (Divider & text)

Green = # 15a946 (Checkbox active color)

Screen Description

Home: Screen that shows the added tasks.

Add Task: For adding tasks contains two text fields for name and date.

Screens

My Tasks

2 of 5 tasks

☐ **Buy Milk**
Mon, Apr 30

☐ **Plan Weekend Outing**
Tue, May 01

☐ **Publish Friday Blog Post**
Fri, May 04

~~**Wash Cloths**~~
Sat, May 05
